

# PRIVATE CLOUD FOR PROFESSIONAL SERVICES FIRMS

## DELIVER PROFESSIONAL SERVICES VIA THE CLOUD

Professional services firms such as accounting and legal rely on information to provide business-critical advice and counsel. Today, the cloud and mobility enable accountants, attorneys, and other professionals to manage client relationships from virtually anywhere using a broad range of devices. The key is safeguarding client data to build relationships and maintain trust.

TetherView's private cloud solutions are uniquely suited for professional services firms, integrating leading edge technologies such as multi-factor authentication, encryption, and geofencing. As security and compliance are paramount, TetherView's virtual desktops and virtual servers support a fully-audited user experience. This allows professional services firms operating in regulated industries to maintain high security standards.

The TetherView platform and data centers are AICPA SOC-compliant. Our solution was validated by third-party auditors and the system of internal controls in place for our data center services was properly documented. All controls were properly designed, in place, and in operation.

With TetherView, compliance assurance is guaranteed. TetherView's private cloud solutions are compliant with the New York State Department of Financial Services cybersecurity regulations, HIPAA, FINRA, and NIST.

- ✓ Compliance
- ✓ Security
- ✓ Mobility
- ✓ Multi-Factor Authentication
